Project Title: Tama the Cat Website

https://en.wikipedia.org/wiki/Tama_(cat)

Since the content on this page isn't too lengthy, I think the website would be effective as a one-page website with navigation in a top menu bar with links to different divs. There are a lot of images that can be used to create more interest. Different sections could be:

- **Overview of Tama** - why she's famous / significant

- **Early Life** - Tama's origins and such

- **Stationmaster** - an outline of Tama's career

- **Enshrinement** - how people honor Tama after she died

- **Successors** - the cats who have come after

- **In Media** - references to Tama in various popular media forms

- **Photo Gallery** - I'm not sure if this should be a completely different section of its own, but it would be cool to have a lot of images throughout the page or dedicated to this space
